School of Electronics And Information Technology Sun Yat-Sen University

April 11, 2024

#### **Contents**

- 1. Background
  - 1.1 Reinforcement Learning
- 2. Multi-task & Continual
  - 2.1 Representations
- 3. Conclusion

# 1. Background

# 1.1 Reinforcement Learning

Section 1.1 xxxxxx & xxxxxx xxxxxxx XXXXXXXX

#### **Introduction of MARL**

中山大學 sun yat-sen university

In a nutshell

Agents

 $MARL\ ^{[1]}$ 

<sup>[1]</sup> S. V. Albrecht, F. Christianos, and L. Schäfer, Multi-Agent Reinforcement Learning: Foundations and Modern Approaches. MIT Press, 2023.

#### **Introduction of MARL**

中山大學 sun yat-sen university

In a nutshell

Agents

MARL [1]

### Assumptions about the agents' rewards:

- Fully cooperative (Warehouse Management)
- Competitive (Go)
- Mixed (Automated Trading)

<sup>[1]</sup> S. V. Albrecht, F. Christianos, and L. Schäfer, Multi-Agent Reinforcement Learning: Foundations and Modern Approaches. MIT Press, 2023.

### **Introduction of MARL**

In a nutshell

Agents

MARL [1]

### Assumptions about the agents' rewards:

- Fully cooperative (Warehouse Management)
- Competitive (Go)
- Mixed (Automated Trading)

## Type of solution concept the algorithm is designed:

- Minimax/Nash/Correlated equilibrium
- Pareto-optimality/social welfare/fairness
- No-regret
- etc.

<sup>[1]</sup> S. V. Albrecht, F. Christianos, and L. Schäfer, Multi-Agent Reinforcement Learning: Foundations and Modern Approaches. MIT Press, 2023.

## 2. Multi-task & Continual

# 2.1 Representations

aaa

# 3. Conclusion

xxxxxxx xxxxxxx xxxxxxx Section 3

### **Challenges**

Most

### How

• Practicality
